Subject: Update on Gold King Mine Issue

Hi Austin,

I was wondering if you all had any new updates for the Gold Kind Mine issue, specifically since the contamination has made it into NM. Additionally, my district director said that she had gotten an update last week, but I haven't seen anything and wanted to double check that I am on your emailing lists as the district staffer covering environmental matters and disaster relief in the Congresswoman's office.

Thank you,

Alex
